NUCLEAR, SECURITY & ENVIRONMENTAL

OIL, GAS & CHEMICALS

Ged Silva

General Manager, Infrastructure – Asia Pacific
Principal Vice President

Ged Silva is the general manager for the Asia Pacific region for Bechtel's Infrastructure business unit. In this role, he oversees active projects and leads business strategy for the aviation, rail, civil, power, and telecommunications sectors in the region.

During his 30-year Bechtel career, Ged has held leadership roles throughout its functions, projects, and organization—including in three of Bechtel's four global business units.

Ged relocated from the U.K. to Australia in 1995 to join the Mining & Metals (M&M) business in Brisbane, working on several aluminum smelter projects in engineering, construction, and start-up roles and in-plant services. Later he joined the Oil, Gas & Chemicals business unit to lead the engineering on the Alba Line 5 Aluminum Smelter in Bahrain, the Sohar Aluminum Smelter in Oman, the Alumina Project in Guinea, and the Worsley Alumina Project in Western Australia.

Ged returned to the M&M business as the manager of engineering in Australia during a period of unprecedented growth. Roles as the Asia Pacific EPC Functions manager and general manager for the Europe, Africa, and Middle East region followed.

Since joining the Infrastructure business in 2019, Ged has focused on supporting customers on two of Australia's largest transportation projects: the expansion of the Sydney Metro by building the first train tunnels under Sydney Harbour, and the construction of a new international airport in Western Sydney.

Ged earned a Bachelor of Engineering (Honours) from the De Montfort University in Leicester, U.K., and obtained his chartered engineering status in 1993.

Bechtel is a trusted engineering, construction and project management partner to industry and government. Differentiated by the quality of our people and our relentless drive to deliver the most successful outcomes, we align our capabilities to our customers' objectives to create a lasting positive impact. Since 1898, we have helped customers complete more than 25,000 projects in 160 countries on all seven continents that have created jobs, grown economies, improved the resiliency of the world's infrastructure, increased access to energy, resources, and vital services, and made the world a safer, cleaner place.

Bechtel serves the Infrastructure; Nuclear, Security & Environmental; Oil, Gas & Chemicals; and Mining & Metals markets. Our services span from initial planning and investment, through start-up and operations. www.bechtel.com
